# ***How I Stacked It***

**Myles Arnott  
Co-Founder at  
Full Stack Modeller and  
Fractional Finance Director**

# Budgeting

Financial forecast software for cash flow, budgeting and business planning.

*"Brixx is the simplest tool to create a three-statement budget. Once you have your budget you can then connect to Xero to bring through your actuals for comparison and to reset your forecast start point."*

[brixx.com](https://brixx.com)

# 2

## Reporting

Build custom financial reports in excel using live Xero data.

*"Scott's Add-ins enables you to connect Xero to Excel through simple formulae. This means that you can build your management accounts reports in the format that you need, in Excel, and can refresh them at the click of a button."*

# Dext

# 3

## Purchase Ledger

Dext allows businesses to electronically capture and store receipts, invoices and other supporting documents to ensure they keep accurate and secure financial records. Dext removes the hassle of manual entry.

*“An essential tool for purchase ledger automation. Dext does the hard work for you, meaning that we can get on with the interesting stuff.”*

[dext.com](https://dext.com)

# 4

## Approvals

ApprovalMax helps you to get your financial documents approved on time. Streamline your workflow instead of sending 100s of emails to get approval for accounting documents.

*“Simple spend control in ApprovalMax, through an easy-to-use workflow that ensures only approved invoices make it into your accounts.”*

[approvalmax.com](https://approvalmax.com)

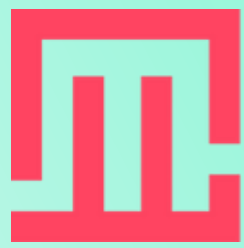

# 5

## Consolidation

Automate how you consolidate financial, sales and KPI data with Join to create great-looking reports quickly and seamlessly.

*“Join is hands down the best solution for managing intercompany eliminations across a group of Xero-based entities.”*

[joinin.co](https://joinin.co)

Mayday

## Intercompany Reconciliations

Recharge automation, cross-entity bank reconciliation and auto-balanced intercompany loan accounts.

*"For group businesses with multiple entities on Xero, Mayday is ideal for intercompany balance sheet recs and bank rec across the group."*
