Approvals

ApprovalMax helps you to get your financial documents approved on time. Streamline your workflow instead of sending 100s of emails to get approval for accounting documents.

“We use this app for all our approval flows which include purchase orders, bills, payment batches, contact creations and credit notes. It takes away the headache of chasing the approvers for physical signatures which delays the approval process significantly. With ApprovalMax, approvals are more efficient.”

3

Stock Control

For small businesses that sell on multiple channels, Cin7 Core is an all-in-one inventory management system built to scale.

"Cin7 Core controls our stock levels; we started in Drone sales last year which added an additional service to our clients."

Receipts

With Hubdoc, you can import all your financial documents and export them into data you can use.

“With Hubdoc, the nightmare of getting receipts from staff is something of the past. It enables staff to easily take photos of receipts and send them to my finance team. With its OCR technology, it even completes the data for my team, so processing is a breeze.”
