How I Stacked It

Felix Matthews
CFO at SINE Digital

Consolidation

Automate how you consolidate financial, sales and KPI data with Joiin to create great-looking reports quickly and seamlessly.

"Joiin solves a simple need, multi-entity Xero consolidation, and does it well. I like the custom report features and comprehensive FX management."

Payroll

Make UK payroll smooth, compliant and error-free with our automated payroll software by streamlining repetitive tasks, removing payroll deadlines, and getting expert payroll support.

"Pento took the pain out of payroll. A deep integration with our HRIS means no duplicating data and the simple UX makes the final review quick and easy."

3

FP&A

Stop struggling with spreadsheets, wrangling CSVs, and digging through outdated files. Start sharing live reports that drive better decisions, in minutes.

"I thought all FP&A software was clunky, expensive, and came with an arduous implementation project. Then I discovered Causal. Incredibly powerful, and you can be up and running in minutes."

Mayday

4

Intercompany Transactions

Recharge automation, cross-entity bank reconciliation and auto-balanced intercompany loan accounts.

“Another fantastic app that turns Xero into an enterprise-level product.

Providing smart solutions to month-end pain points, Mayday has already saved me hours of switching between Xero accounts!”

Month-End Management

Businesses use Numeric to streamline the month-end close, automate workflows, and generate real-time insights.

“Moving to Numeric from spreadsheet working papers supercharged our month-end. We are now closing faster with increased accuracy thanks to the live Xero and Google Sheets integrations.”
