

How I Stacked It

Lucy Colbourne

Accounts Assistant at
Kollosche

Mayday

Intercompany

“One strength of Mayday is its ability to provide real-time insights, helping streamline decision-making processes. Its functionality to be able to on-charge transactions at the source in Xero to a different entity is game-changing. The efficiency and ease of running month-end processing is also a positive.”

Reporting

"PowerBI's integration with Xero provides excellent reporting and visualisation capabilities, which are valuable for in-depth financial analysis."

3

Payroll

“Automates payroll processing by syncing employee data, reducing manual entry and errors each pay run. Employment Hero ensures compliance with employment laws and keeps both systems updated with real-time changes. This integration simplifies payroll, superannuation, and tax submissions, saving time and improving accuracy.”

4

Xero Invoicing

“Automates the extraction and entry of invoice data from emails directly into Xero, speeding up invoice processing and reducing manual errors. This ensures timely payments and creates a scalable solution for handling increasing invoice volumes. The automated system also provides a clear audit trail for better financial tracking.”
